

STORIES FROM WITHIN

My family – my husband, myself and our 3 daughters are beneficiaries of RCS BLESS Family programme. My husband is Singaporean and I relocated to Singapore with a Long-Term Visit Pass after we married. I struggled to integrate into Singapore and care for my children due to the language barrier and challenges of relocation. With limited social support, my family often felt helpless and did not know who to approach in times of difficulties.

RCS helped my family by providing monthly groceries. Volunteers befriended our family and provided us with social support. Our children also became more confident as they received academic and character development support through the programme. Through RCS, we also experienced community as we connected with other families in the programme. We no longer feel alone in this foreign land.

Jindi,

BLESS Family mum
